

Plastering Apprenticeship Standard

Apprenticeship

Plasterers apply layers of plaster onto walls, floors and ceilings. Plastering serves a protective function, in that it makes buildings more robust and also an aesthetic function.

Plasterers will often complete dry lining projects during their career. Although a person may specialise solely in dry lining, a plasterer must have the knowledge of dry lining in addition to their knowledge and skills to plaster.

Our Level 2 Plastering Apprenticeship will help you gain the skills and experience needed for a career in the industry.
