

Certificate in Advanced Counselling Studies

University

This programme is intended for people who have completed an introductory counselling course, typically at a Level 2 who wish to develop their counselling skills further or gain a qualification in Higher Education which qualifies them to apply for the Level 5 Diploma in Person Centred Counselling (a professional qualification in Counselling)

The Certificate of Advanced Counselling, enables you develop your counselling skills within a person-centred framework. You are not required to work with clients, nor work within a placement, as this is an academic course which does not in itself provide a profession qualification, but can create a pathway towards achieving this.

Please note, that there is no automatic progression route between our courses. Each qualification requires a rigorous assessment process including an interview, and due to limited places, you may be placed on a waiting list or may not be successful on your first application.
